

## 7.0 Earthquake on Lombok, Indonesia

(For the Policy Document effective 21 April; Advice as at 5:00pm on Tuesday, 7 August 2018, NZST)

At 11.46pm NZST (7:46pm local time) on the 5<sup>th</sup> August 2018, a magnitude 7.0 earthquake struck Lombok, Indonesia, damaging buildings, causing numerous injuries and fatalities and triggering a brief tsunami warning. The earthquake has already caused many aftershocks. This follows an earlier earthquake that hit Lombok on 29 July 2018. The New Zealand government is currently advising against all tourist and other non-essential travel to Lombok and the Gili islands.

**For policies issued before 11:46pm (NZST) on Sunday 5 August 2018**, cover is available where you have no option but to change your travel plans because your service provider cancels or restricts services due to circumstances arising from or related to this event. Where your trip has not yet begun, cover is available for the lesser of rearrangement or cancellation costs.

Where travel has begun and you have no option but to change your travel plans, your policy covers the following benefits when they are listed under the plan you have purchased: medical expenses overseas; travel delay; cancellation costs or additional travel and/or accommodation expenses resulting directly from a provider cancelling or restricting your scheduled public transport services.

**For policies issued after 11:46pm (NZST) on Sunday 5 August 2018**, cover is not available for claims arising from or in connection with this event, as this event is now known and no longer unforeseen.

**This restriction of cover also applies to any travel plans made or changed after 11:46pm (NZST) on Sunday 5 August 2018 where you are impacted by the event.**

We are monitoring the situation and will advise when this position changes. Refer to your providers following service interruptions; they can best assist with making alternative arrangements.
