

## Eruption of Mount Agung, Bali

(Advice as at 12pm on Wednesday 22 November 2017, NZDT)

Mount Agung, Bali, Indonesia has begun erupting smoke and ash. An official exclusion zone remains in place that in some places extends to 7.5 kilometres from the volcano. We are now issuing a cover cut-off for claims arising from this known event.

**For policies purchased up to 10:05pm (NZDT) on Tuesday 21 November 2017**, cover is available where you have no option but to change your travel plans because your service provider cancels or restricts services as a result of any volcanic activity. Where your trip has not yet begun, cover is available for the lesser of rearrangement or cancellation costs.

Where travel has begun and you have no option but to change your travel plans, your policy covers the following benefits when they are listed under the plan you have purchased: medical expenses overseas; travel delay; cancellation costs or additional travel and/or accommodation expenses resulting directly from a provider cancelling or restricting your scheduled public transport services.

**For policies purchased after 10:05pm (NZDT) on Tuesday 21 November 2017**, cover is not available for claims arising from any volcanic activity, including any new ash cloud events, as such events are no longer unforeseen.

**This restriction of cover also applies to any travel plans made or changed after 10:05pm (NZDT) on 21 November 2017 where you are impacted by the volcanic activity.**

We are monitoring the situation and will advise when this position changes. Refer to your providers following service interruptions; they can best assist with making alternative arrangements.
